RadSite to Exhibit at RSNA Conference 2017

RadSite continues to offer advanced diagnostic imaging accreditation recognized by key public and private payers

Annapolis, MD / PR Web / November 20, 2017 – RadSite™, a leading accrediting organization promoting quality-based imaging practices, will be exhibiting at the Radiology Society of North America’s 103rd Scientific Assembly and Annual Meeting, Nov. 26 - Nov. 30 at McCormick Place in Chicago, IL. RadSite team members will be on hand to respond to questions regarding the accreditation process and provide a brief demonstration of the online accreditation portal. Visit the RadSite team at booth 1459, located in the South Hall. To register for the conference, click [here](#).

RadSite is one of just four organizations recognized by the U.S. Centers for Medicare and Medicaid Services (CMS) to offer advanced diagnostic imaging accreditation. RadSite’s MIPPA Accreditation Program (MAP) offers accreditation for CT, MRI, PET, and SPECT diagnostic imaging machines. To learn how RadSite’s MAP can benefit payers, imaging providers and other stakeholders, click [here](#).

“We are happy to showcase the value of MAP at the RSNA conference,” says Jonathon Ramirez, RadSite director of sales. “It is important that radiological facility directors know that they have options when it comes to accrediting their imaging machines.” RadSite offers the greatest value in the industry for accreditation.

“Recent advancements in medical imaging are often thought to enhance clinical practice,” notes Bruce Reiner, MD, RadSite’s chief medical officer. However, he adds that “imaging providers need to stay updated on the latest trends in the marketplace including ongoing cost containment pressures. RadSite’s MAP can help ensure that imaging providers continue to focus on quality and implement policies to promote evidence-based pathways.”

RadSite has established a best-in-class reputation, in part due to the following:

- Pricing is straightforward. Applicants pay a specific amount per machine with no hidden costs.
- The accreditation review process is efficient. RadSite provides a simple, online application process with a wizard to help users step-by-step. And because the entire process is online, applicants don’t have to mail expensive packages.
- RadSite is meaningful and provides helpful feedback. RadSite offers a 60-day corrective action period for applicants to remedy deficiencies and improve processes rather than failing outright. This includes constructive feedback through consultative on-site visits that helps all applicants take gradual steps to better their quality.

For more information about RadSite’s MIPPA accreditation program, contact Jonathon Ramirez, director of sales, at (215) 745-1767 or via email at info@radsitequality.com.

About RadSite™ (www.RadSiteQuality.com)

Founded in 2005, RadSite's mission is to promote quality-based practices for imaging systems across the United States and its territories. In addition, RadSite is recognized by the Centers for Medicare and Medicaid Services (CMS) as an official accreditation organization under the Medicare Improvements for Patients and Providers Act (MIPPA) of 2008. RadSite's programs help assess, track and report imaging trends to enhance imaging procedures and outcomes. RadSite also offers educational programs, publishes issue briefs and underwrites research to raise awareness of patient safety issues and to promote best practices. The organization is governed by an independent board and committee system, which is open to a wide-range of volunteers to ensure transparency and accountability. To learn more about RadSite, please contact us at (443) 440-6007 or info@radsitequality.com.
