RadSite Announces Complimentary Winter Webinar Series Addressing Image Quality
Educational Series Highlights Accreditation, Imaging Physics Testing and Artificial Intelligence

Annapolis, MD / PR Web / November 21, 2017 – RadSite™, a CMS recognized accrediting agency promoting quality-based imaging, announces today the launch of the complimentary Winter Webinar Series. The presentations begin on December 19th and will include three webinars focusing on accreditation, imaging physics testing, and artificial intelligence (A.I.).

“The upcoming educational series will highlight recent trends impacting imaging quality and technology,” says Eliot Siegel, MD, RadSite’s chief technology officer and Standards Committee chair. “The webinars will provide key insights for a wide array of stakeholders, including providers, consumers payers and others.”

Click [here](#) to view a full listing of upcoming events and to register. RadSite’s Educational Series will include:

- **Dec. 19, 2017, noon-1 p.m. EST – *RadSite Accreditation Overview*:** This webinar will provide an overview of RadSite as a market leader in imaging accreditation, its current and future standards, including changes to the MIPPA Accreditation Program (covering CT, MRI, PET and SPECT imaging systems), and an overview of the accreditation process. The session will showcase the new accreditation portal and best practices associated with navigating the application process. The presentation also will highlight reasons why demand for RadSite accreditation is expanding. The panel will be moderated by Jonathan Ramirez, B.S. RT R CT, RadSite director of sales; and will include perspectives from Julie Irons, RadSite accreditation manager; and Bruce Reiner, MD, RadSite’s chief medical officer. Click [here](#) to register.
- **Jan. 23, 2018, 1-2 p.m. EST – *The Importance of Imaging Physics Testing*:** During this webinar, RadSite will highlight the importance of physics testing for a wide-range of imaging systems. The session also will detail the scope of RadSite’s technical component of the MIPPA Accreditation Program (MAP), including new changes to the Standards that are under development. The conversation will be moderated by Mark Casner, RadSite’s Accreditation Committee chair; and will include commentary from panelist Phillip W. Patton, PhD, CHP, DABR, DABSNM, RadSite’s chief physicist officer. Click [here](#) to register.
- **Feb. 21, 2018, noon – 1 p.m. EST – *Artificial Intelligence in Medical Imaging: Hype, Reality and Future Applications*:** This webinar will discuss the hype, reality and future applications of artificial intelligence/machine learning in diagnostic imaging. This will include definition and explanation of how machine learning works and how it is being applied in diagnostic radiology and nuclear medicine and how it will be in the future. It will also include an overview of the state of the art in AI in non-medical imaging applications and how they could be brought to diagnostic

radiology. In addition to applications of image diagnosis and quantification, the tremendous potential to provide a more efficient, efficacious, and safe practice using machine learning will be discussed. Garry Carneal, JD, MA, RadSite Board chair; and panelist Eliot Sigel, MD, RadSite's chief information officer and Standards Committee chair. Click [here](#) to register.

“The RadSite team looks forward to offering these webinar presentations,” says Carneal. “RadSite is proud to be a thought leader in the diagnostic imaging arena; these presentations are an extension of our educational mission and solidify our commitment to quality and patient safety.”

Pre-registration is strongly encouraged for all programs in the series. For more information regarding upcoming educational events, visit www.RadSiteQuality.com/education.

About RadSite™ (www.RadSiteQuality.com)

Founded in 2005, RadSite's mission is to promote quality-based practices for imaging systems across the United States and its territories. In addition, RadSite is recognized by the Centers for Medicare and Medicaid Services (CMS) as an official accreditation organization under the Medicare Improvements for Patients and Providers Act (MIPPA) of 2008. RadSite's programs help assess, track and report imaging trends to enhance imaging procedures and outcomes. RadSite also offers educational programs, publishes issue briefs and underwrites research to raise awareness of patient safety issues and to promote best practices. The organization is governed by an independent board and committee system, which is open to a wide-range of volunteers to ensure transparency and accountability. To learn more about RadSite, please contact us at (443) 440-6007 or info@radsitequality.com.
